

SIXES

Materials: 1 Die & Writing Paper
Grouping: 2-6 Students

Directions: Students will roll the die and if they land on a 6 they start to write to 50. The other students start to roll the die, if they land on the 6 than the first person must stop writing and the person who just rolled a 6 gets to start writing where the first person left off. Whoever writes the 50 wins. (even if the first student writes to 49 and the second student writes the 50!)
