

# Subtract from 10

**Materials:** Counters in two different colors, dice

**Number of Players:** 2

**Directions:** Take turns to roll a dice and subtract the number shown from 10. Record the subtraction fact and cover the answer on the board. Keep taking turns until all of the numbers on the board have been covered. Count how many counters you have each used. The winner is the player with the most counters on the board.

7	8	4	5
8	6	5	6
9	6	4	8
7	9	4	5
