

Ten Frame Subtraction

Materials: counters, ten frames, numeral cards 0-10

$$10 - 2 = 8$$

1. Place one counter in each section of your frame.
2. Turn over a numeral card and remove that number of counters from your frame.
3. How many counters did you start with? How many counters did you take off? How many counters are left? Record your thinking.
4. Repeat at least 10 times.
